REGULATIONS

COMMISSION REGULATION (EU) 2018/1480

of 4 October 2018

amending, for the purposes of its adaptation to technical and scientific progress, Regulation (EC) No 1272/2008 of the European Parliament and of the Council on classification, labelling and packaging of substances and mixtures and correcting Commission Regulation (EU) 2017/776

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 ⁽¹⁾, and in particular Article 37(5) and Article 53(1) thereof,

Whereas:

- (1) Table 3.1 of Part 3 of Annex VI to Regulation (EC) No 1272/2008 contains the list of harmonised classification and labelling of hazardous substances based on the criteria set out in Parts 2 to 5 of Annex I to that Regulation.
- (2) Proposals to introduce harmonised classification and labelling of certain substances and to update or delete the harmonised classification and labelling of certain other substances have been submitted to the European Chemicals Agency pursuant to Article 37 of Regulation (EC) No 1272/2008. Based on the opinions on those proposals issued by the Committee for Risk Assessment of the Agency (RAC), as well as on the comments received from the parties concerned, it is appropriate to introduce, update or delete harmonised classification and labelling of certain substances.
- (3) Council Directive 67/548/EEC ⁽²⁾ and Directive 1999/45/EC of the European Parliament and of the Council ⁽³⁾ were repealed with effect from 1 June 2015. As a result, Part 3 of Annex VI to Regulation (EC) No 1272/2008 was amended by Commission Regulation (EU) 2016/1179 ⁽⁴⁾ to remove Table 3.2. That amendment took effect on 1 June 2017. Annex VI to Regulation (EC) No 1272/2008 was further amended by Commission Regulation (EU) 2017/776 ⁽⁵⁾ to delete references to Table 3.2, to convert references to Table 3.1 into references to Table 3 and to delete references to the repealed Directives. Under Article 2(2) of Regulation (EU) 2017/776, the majority of those amendments were to apply from 1 June 2017, while the remaining amendments were stated to apply from 1 December 2018. However, due to an oversight, Article 2(2) failed to list two further amendments that

⁽¹⁾ OJ L 353, 31.12.2008, p. 1.

⁽²⁾ Council Directive 67/548/EEC of 27 June 1967 on the approximation of laws, regulations and administrative provisions relating to the classification, packaging and labelling of dangerous substances (OJ 196, 16.8.1967, p. 1).

⁽³⁾ Directive 1999/45/EC of the European Parliament and of the Council of 31 May 1999 concerning the approximation of laws, regulations and administrative provisions of the Member States relating to the classification, packaging and labelling of dangerous preparations (OJ L 200, 30.7.1999, p. 1).

⁽⁴⁾ Commission Regulation (EU) 2016/1179 of 19 July 2016 amending, for the purposes of its adaptation to technical and scientific progress, Regulation (EC) No 1272/2008 of the European Parliament and of the Council on classification, labelling and packaging of substances and mixtures (OJ L 195, 20.7.2016, p. 11).

⁽⁵⁾ Commission Regulation (EU) 2017/776 of 4 May 2017 amending, for the purposes of its adaptation to technical and scientific progress, Regulation (EC) No 1272/2008 of the European Parliament and of the Council on classification, labelling and packaging of substances and mixtures (OJ L 116, 5.5.2017, p. 1).

should have applied from 1 June 2017, including in particular the amendment changing the name of the Table from 'Table 3.1' to 'Table 3'. The second subparagraph of Article 2(2) of Regulation (EU) 2017/776 should therefore be corrected to include reference to those two amendments. This correction, although it has the effect of applying the two amendments retroactively, does not affect the rights and obligations of manufacturers, importers, downstream users or suppliers.

- (4) Regulation (EU) 2017/776 also amended Annex VI to Regulation (EC) No 1272/2008 to add harmonised 'Acute Toxicity Estimate' (ATE) values in Table 3.1 as part of the information relating to the classification and labelling of certain substances for the purposes of the classification of mixtures. The ATE introduced for nicotine was expressed in mg/kg. In order to clarify how mixtures containing nicotine should be classified, the ATE for the oral and the dermal routes for nicotine should instead be expressed in 'mg/kg bw' ⁽¹⁾. The ATEs for three other substances, namely colecalciferol, 1,2-dihydroxybenzene and pinoxaden should also be expressed in the same way. In addition, in the title of the penultimate column of Table 3.1, a footnote should be added indicating what the abbreviation 'mg/kg bw' stands for.
- (5) The Annex to Commission Regulation (EU) 2018/669 ⁽²⁾ provides for the translation of the names of the substances included in Table 3.1 of Annex VI to Regulation (EC) No 1272/2008. As a consequence, the title of the second column of that Table, which currently refers to 'international chemical identifications', should be amended to take account of the fact that the 'international chemical identifications' will lose their international character once the Regulation providing for their translation in Annex VI becomes applicable. For the sake of consistency, this amendment should take effect when the translation of the names in Annex VI takes effect. The new title should reflect the terminology used in Article 18 of Regulation (EC) No 1272/2008.
- (6) Compliance with the new or updated harmonised classifications should not be required immediately as a certain period of time will be necessary to allow suppliers to adapt the labelling and packaging of substances and mixtures to the new or revised classifications and to sell existing stocks. That period of time will also be necessary to allow suppliers to adapt to and comply with other legislative obligations resulting from the new or updated harmonised classifications, such as those set out in Article 22(f) or Article 23 of Regulation (EC) No 1907/2006 of the European Parliament and of the Council ⁽³⁾, those set out in Article 50 of Regulation (EU) No 528/2012 of the European Parliament and of the Council ⁽⁴⁾ or those set out in Article 44 of Regulation (EC) No 1107/2009 of the European Parliament and of the Council ⁽⁵⁾.
- (7) Regulation (EC) No 1272/2008 should therefore be amended accordingly.
- (8) In line with the transitional provisions of Regulation (EC) No 1272/2008 which allow for new provisions to be applied at an earlier stage on a voluntary basis, suppliers should be allowed to apply the new and updated harmonised classifications, and to adapt the labelling and packaging accordingly, on a voluntary basis before the date of application of those new or updated classifications.
- (9) The measures provided for in this Regulation are in accordance with the opinion of the Committee established by Article 133 of Regulation (EC) No 1907/2006,

HAS ADOPTED THIS REGULATION:
